And signed by the Legal Representative of iSea: Ioannis Giovos

A handwritten signature in blue ink, consisting of a stylized 'I' followed by a series of loops and a long horizontal stroke extending to the right.

Environmental organisation for the preservation
of the aquatic ecosystems

ABOUT

iSea is a Not-for-Profit Non-Governmental Organisation founded in March 2016, in Greece, with the aim to preserve, protect and restore the precious heritage of the aquatic environment. The organisation consists of a team of young, but experienced scientists and professionals of various disciplines from marine biologists to specialists in environmental management and educators. The organisation strives to shed light on the foremost issues affecting our oceans and propose alternatives for a sustainable future. Its activities focus on 4 main pillars: fisheries, invasive and alien species, human and aquatic ecosystems and marine litter. The tools utilized by iSea vary from scientific research to citizen science and environmental education and awareness. In the context of all its activities and projects, iSea has developed several collaborations with various entities both nationally and internationally.

OVERVIEW

During 2021 iSea expanded its activities. In order to efficiently fulfill its goals and contribute to the protection of the aquatic ecosystems through its work, the organisation significantly increased the number of full-time employees, as well as its external partners. In addition, iSea improved its facilities by moving into a new working place. Diving and laboratory equipment was also improved in order to enable the efficient implementation of iSea's projects and action.

FUNDERS

The organisation not only maintained its funding network, but also expanded its sources of funding coming from private foundations, and National and European projects.
